  Sept 2004 – June 2006

## PROFILE

Soon to be Scrum Agile certified Front-end web developer proficient in HTML5, CSS3, JavaScript (ES5, ES6+), Git, and GitHub. Demonstrated expertise in utilizing advanced features of ReactJS, including React Hooks, to build interactive and responsive user interfaces. Skilled in creating engaging user experiences with WordPress CMS. Strong foundation in design principles and REST API consumption. Committed to continuous learning and staying up-to-date with the latest web development trends.

## TECHNICAL PROJECTS

### Mindset – Headless React | BCIT
May 2023

- Utilized WordPress as the backend CMS and managed content using REST API.
- Implemented a headless architecture, separating the React frontend from the WordPress backend.
- Leveraged REST API endpoints to fetch and retrieve data from the WordPress backend.
- Created custom API calls to retrieve specific data for the application.

### Flixr – Movie Database React App | BCIT
April–May 2023

- Designed and created a mockup of a movie database using Photoshop, and translated it into a fully functional prototype using Adobe XD.
- Collaborated closely with a team of three to bring the movie database prototype to life using React.js and SCSS, implementing user-friendly features such as a search feature, a favorite page and dynamic data display from an external API.
- Demonstrated strong problem-solving skills and a keen eye for user experience throughout the project's lifecycle.

## FRONT END DEVELOPER

## PROFESSIONAL AFFILIATIONS

- **Mentor**
  **Canada Learning Code**
  starting soon

- **Volunteer**
  **HackerX | WomenHack**
  2017 – present

- **Member**
  **TechVancouver Meetup Group**
  2023 – present

## ADDITIONAL INFORMATION

### OTHER SKILLS

- English: Fluent (speak, read, write)
- French: Fluent (speak, read, write)
- Spanish: Fluent (speak, read, write)
- Italian: Basic (read and write)

### INTERESTS

- Flamenco dancing
- Learning new technologies
- Playing instruments
- Singing
- Hiking with my dog
- Quilling (paper art)

## Matching Game – Vanilla JavaScript | BCIT
March 2023

- Created a matching game using JavaScript, HTML, and CSS.
- Implemented interactive functionality using JavaScript functions.
- Incorporated animations and sounds to enhance the user experience.
- Showcased proficiency in JavaScript without the use of objects.

## WORK EXPERIENCE

**Vancouver School Board** | Vancouver, BC
Sept 2014– Dec 2022
### Student and Support Worker

- On-call employee at various schools for several years, including Laura Secord Elementary for a few years.
- Collaborated with a team to implement programs and strategies that met specific student needs and improved academic performance and satisfaction.
- Exhibited adaptability, customization, and problem-solving skills through collaborative team efforts in developing and implementing solutions, while actively engaging in crisis prevention and intervention.

**Kino Cafe** | Vancouver, BC
Sept 2008– Jun 2017
### Server

- Served an average of over 80 customers in a 6 hour shift at a cultural restaurant featuring flamenco performances.
- Developed strong communication and interpersonal skills, ensuring customer satisfaction and fostering a loyal customer base.
- Demonstrated strong organizational and time-management skills by effectively managing multiple tasks and priorities in a fast-paced environment.
